Peri-implantitis:

Prevention and treatment of soft and hard tissue defects

March 1-2, 2019 | Harbour Grand Kowloon, Hong Kong

Friday, March 1, 2019

08:45 - 09:00	Introduction/Opening remarks by the chairs of the congress (M. Tonetti, S. Renvert)
09:00 - 09:30	An overview of peri-implant diseases including aetiology, epidemiology and diagnosis (N. Lang)
	Prevention of peri-implant diseases Moderator: P. Preshaw
09:30 - 11:00	D. Thoma: Development of an implant site – planning implications of implant placement for prevention M. Janda: Combining aesthetics and good cleans ability by designing an optimal superstructure Discussion
11:00 - 11:30	Coffee Break
	Reduction of the risk of peri-implant diseases by improving soft tissues at time of implant placement Moderator: F. Graziani
11:30 - 13:00	M. Sanz: Materials and techniques to increase the width of keratinized tissue at implants O. Zühr: Plastic surgery techniques to increase the soft tissue thickness at implants Discussion
13:00 - 14:30	Lunch Break / Industry Session
	Cause related peri-implant therapy Moderator: S. Murakami
14:30 - 16:00	G. Salvi: Non-surgical peri-implant therapy F. Schwarz: The role of laser therapy in the management of peri-implantitis Discussion
16:00 - 16:30	Coffee Break
	Resective surgical approaches - when is it an option Moderator: M. Goldstein
16:30 - 18:00	J. Meyle: Resective surgical approaches to reduce probing depth and increase cleansability L. Heitz-Mayfield: Benefits and risks of antibiotics and antimicrobials in peri-implant surgery Discussion
18:00 - 19:00	Industry Session
19:00 - 20:00	Welcome Reception

Saturday, March 2, 2019

07:45 - 08:45	Breakfast Session
	Benefits and limitations of regeneration of peri-implant defects Moderator: J. C. Park
09:00 - 10:30	S. Renvert: The use of bone augmentation materials in the regeneration of peri-implantitis defects M. Roccuzzo: Advanced flap management to improve the regenerative outcomes in peri-implantitis defects Discussion
10:30 - 11:00	Coffee Break
11:00 - 12:00	Industry Session
	Management of soft tissue recessions at implants Moderator: K. Demirel
12:00 - 13:30	J.L. Giovannoli: Treatment of mucogingival recessions at existing peri-implantitis sites F. Cairo: Handling of soft tissue recessions in the aesthetic zone Discussion
13:30 - 14:30	Take home messages and and Closing remarks M. Tonetti
